

FastCharge Triathlon TE-US Lead Acid Battery

FastCharge Lead Acid Batteries utilise the highly sophisticated European tubular plate technology with flexible bolt-on inter-cell cable connectors. FastCharge tubular batteries are designed specifically for all motive power heavy duty applications and multi-shift operations. For light to medium applications, we provide maintenance free (valve regulated) gel technology batteries that stand out for their excellent cycle life and ease of use.

FastCharge Triathlon batteries of the T-US, TPzS, TPzB, and TPzV product lines provide safe and reliable power for electric lift trucks.

Product Features

- Width 6.20 in, US cell
- Robust tubular flooded Lead-Acid technology
- The latest separator design delivers increased acid volumes and increases acid circulation
- Increased cycle life
- Fully insulated flex connectors and post bolts
- Bolt-on termination cables can be easily replaced
- Standardised rated capacities range from 180 to 2000 Ah
- Cell and battery properties comply with IEC 60254-2
- Recyclable
