

Toyota 7FB30 83.2V 300AH Lithium Battery For Electric Truck application

FastCharge EKT's Toyota 7FB30 83.2V 300AH Lithium Battery (LiFePO4) for an electric truck has an extremely high efficiency rate, making it the best choice for material handling equipment, and other applications too such as, cleaning applications and golf carts to name a few.

Technical Specifications

Technical Data	
Rated Capacity	300Ah
Rated voltage of battery	83.2V
Rated voltage of truck	80V
Rated energy content	24960Wh
Cell chemistry	Lithium Iron Phosphate
Cell temperature range	-20°C to 60°C
Working environment temperature	-20°C to 50°C
Charging environment temperature	0°C to 55°C
IP Rating	IP54
Weight	1180kg
Dimension	946 x 815 x 589 mm
Charge Data	
Charge time with charger 80/200	85 min
Opportunity charging with charger	50% of rated capacity after 40min
Application	
Application case	Toyota 7FB30

EKT is a product line of EIKTO Tech.
FastCharge Australia is the primary distributor of EKT Products in Australia, New Zealand and South Africa.
